Introduction

The Botswana University of Agriculture & Natural Resources (BUAN) was established on the 29th of September 2015 when Act No.12 enacted by His Excellency the President.

BUAN is a parastatal institution under the Ministry of Agriculture and Food Security. BUAN offers Certificate, Diploma, Degree, Post Graduate and short courses in Agriculture and Natural Resources.

The University is mandated to teach, train, research and develop market ready graduates in the practice of Agricultural & Natural Resources. It's objective is to promote agricultural development and production in Botswana and in the SADC region.

BUAN conducts a range of research projects on its own, as well as in collaboration with other national and international organisations in the field of agriculture and related sciences. It also stimulates and promotes interest in agriculture and rural development.

The meat industry Training Institute (MITI) is a BUAN campus, based in Lobatse, which specialises in microbiology, abattoir operations and butchery hygiene.

Student Facilities

The University has a wide range of facilities for students.

Hostels

The University has five hundred and twenty-eight (528) beds on campus, most of which is shared accommodation. All hostels have common rooms with recreational facilities, for student relaxation, with a TV and provision for various in-door and outdoor sporting activities. There are also several laundry facilities to cater for student use.

Refectory

The University has two refectories where student meals are prepared and served. Lunches in the refectory cater for all students wishing to purchase.

Heath

The University has a clinic with two consultation rooms, run by two nurses. Cases requiring specialised medical attention are referred to specialised hospitals in Gaborone. There is always a nurse on call, through out the night, on weekends and holidays, as well as Wardens to assist in cases of emergencies after hours.

Recreation

The University has a Student Centre which houses among others, the Student Representative Council offices, a gymnasium, a student bar and a multipurpose hall. The hall can be used for in-door sporting codes such as basketball, volleyball, badminton and table tennis. BUAN also has outdoor facilities for lawn tennis, volleyball, basketball, soccer, softball and athletics. All sporting and entertainment activities provided by the University are open to all registered students.

Wellness Programme

The Botswana University of Agriculture & Natural Resources has a Wellness Coordinator who is responsible for:

- Developing, coordinating and implementing the HIV/AIDS Policy and programmes.
- Coordinating the activities of Wellness Committee and departmental activity plans.
- Developing Information, Education and Communication (IEC) strategies on Wellness in order to prevent and control the spread of HIV/AIDS in the University.
- Providing support and counselling services to staff members and students.

The University has an active Wellness Committee which consists of one representative from each department and some units (as determined by their sizes), including two students. The Committee is responsible among other things, for assisting the Wellness Coordinator in all aspects of implementing the programme.

There is also an Executive Committee, which consists of the BUAN Management and Heads of departments. In addition to the two Committees, there is the Students Against HIV/AIDS (SAHA) Club. Its main objective is to foster Wellness awareness and to implement prevention initiatives, while influencing behavioural change among students.

Library

The Botswana University of Agriculture & Natural Resources Library maintains a wide range of study material on agricultural science and related fields. The library is a depository for publications of the Food and Agricultural Organization (FAO) and is also the National Centre for the Question and Answer Service (QAS). There is a study area with a sitting capacity of up to 300 patrons at a time and a late night study area for BUAN students. The library is fully computerised and all material is accessible via internet: [http: www//host6.buan.ac.bw](http://www//host6.buan.ac.bw)

At present, the library holding stands at 33 000 records, consisting of books, bound journals, FAO materials, audio visual materials, audio cassettes and compact discs.

Online/Electronic Databases

The library has 32 computer workstations, two dedicated to the Online Public Access Catalogue (OPAC) and The Essential Electronic Agricultural Library (TEEAL), a full text stand alone database which offers a collection of the most important agricultural journals in the world and the rest for accessing Internet and word processing. The

library subscribes to a number of agricultural related online resources that complement the library's print collection. The following online databases can be accessed from the library link at:

[http: www//host6.buan.ac.bw](http://www//host6.buan.ac.bw)

- EBSCO Host
- AGRICOLA
- WebSPIRS
- Bio one E- journals
- FAO magazines
- Encyclopaedia Britannica

Membership

Membership to the BUAN library is open to students and staff of the University, external users and affiliated institutions. Library membership currently stands at 1137 members.

Academic Departments

BUAN is made up of six (6) academic departments, a Meat Industry Training Institute and a Centre for In-service and Continuing Education (CICE).

1. The Department of Agricultural Economics, Education and Extension (AEE)

The department's Mission is to teach courses in the socio-economic Sciences and to enhance provision of human resources development in the country. Its major components are economics, education and extension.

For more information contact:

Head of Department

Agricultural Economics, Education and Extension (AEE)
Botswana University of Agriculture & Natural Resources

Private Bag 0027, Gaborone, Botswana
Tel: +267 3650100/ 3650298
E-mail: nvsebina@buan.ac.bw

2. The Department of Agricultural Engineering and Land Planning (AEL)

Its main objective is to teach and train students about physical technologies to provide expertise and technical support in agricultural allied industries in Botswana. The department provides the required training in the four major components of agricultural engineering being; farm power, machinery, soil and water, post harvest technology and farm structures and services.

For more information contact:

Head of Department

Agricultural Engineering and Land Planning (AEL)
Botswana University of Agriculture & Natural Resources
Private Bag 0027, Gaborone, Botswana
Tel: +267 3650100/ 3650149
E-mail: hcchepete@buan.ac.bw

3. Department of Animal Science and Production (ASP)

It offers programmes in animal Agriculture. The courses taught are meant to empower students to serve animal agriculture in their own capacity as entrepreneurs or as public or private sector employees. The department has three components; Animal Health, Animal Nutrition and Range Science.

For more information contact:

Head of Department

Animal Science Production (ASP)
Botswana University of Agriculture & Natural Resources
Private Bag 0027, Gaborone, Botswana
Tel: +267 3650100/ 3650142/228
E-mail: omadibela@buan.ac.bw

4. Department of Basic Sciences (BS)

It is an interdisciplinary department that provides facilities for teaching Mathematics, Physics, Chemistry, Biometry and Biological sciences. The major role of the department within the University is to teach foundation courses in the sciences to students in all programmes.

For more information contact:

Head of Department

Basic Sciences
Botswana University of Agriculture & Natural Resources
Private Bag 0027, Gaborone, Botswana
Tel: +267 3650100/ 3650290
E-mail: dmotlhan@buan.ac.bw

5. Department of Crop Science and Production (CSP)

It is an interdisciplinary department that provides facilities for teaching Mathematics, Physics, Chemistry, Biometry and Biological sciences. The major role of the department within the University is to teach foundation courses in the sciences to students in all programmes.

For more information contact:

Head of Department

Crop Science Production (CSP)
Botswana University of Agriculture & Natural Resources
Private Bag 0027, Gaborone, Botswana
Tel: +267 3650100/ 3650145
E-mail: ubatlang@buan.ac.bw

6. Department of Food Science and Technology (FST)

It teaches and conducts relevant research in the field of Food Science and Technology. It consists of four main disciplines: food processing, food microbiology, food analyses and food chemistry. For more information contact:

Food Science and Technology (FST)
Botswana University of Agriculture & Natural Resources
Private Bag 0027, Gaborone, Botswana
Tel: +267 3650100/ 3650262
E-mail: bmonang@buan.ac.bw

7. Meat Industry Training Institute (MITI)

The institution provides training in microbiologist, meat handling processes for abattoir and butchery hygiene. The course ensures that students gain precise skills that will ensure that they understand how to reduce the number of micro-organisms in meat.

For more information contact:

E-mail: jlepetu@buan.ac.bw

Academic Programmes

Certificate in Meat inspection Duration : 6 months (Full-time)

Higher Diploma Programmes Duration : 3 years/6 Semesters full-time

- Higher Diploma in Agriculture
- Higher Diploma in Animal Health and Production
- Higher Diploma Forestry and Range Ecology

Undergraduate Degree Programmes Duration: 4 years/8 Semesters full-time

- Bachelor of Science Degree in Agriculture
- Bachelor of Science Degree in Agricultural Economics
- Bachelor of Science Degree in Agricultural Education
- Bachelor of Science Degree in Agricultural Extension
- Bachelor of Science Degree in Agricultural Mechanization
- Bachelor of Science Degree in Animal Science
- Bachelor of Science Degree in Crop Science
- Bachelor of Science Degree in Food Science and Technology
- Bachelor of Science Degree in Soil and Water Conservation Engineering
- Bachelor of Science Degree in Range Science

Graduate Degree Programme

Duration: Full-Time: 2 years

Part time: 3 years

- MSc in Agricultural Education
- MSc in Agricultural Engineering (with streams in Agricultural Mechanisation, Land use Planning, Soil and Water Engineering)
- MSc in Animal Science (with streams in Animal Nutrition, Animal breeding and Reproduction and Animal Management Systems).
- MSc in Crop Science (with streams in Agronomy, Horticulture, Crop Protection and soil sciences)

MPhil/PhD in Animal Science

(with streams in animal nutrition , animal breeding and reproduction; animal management systems and animal health)

MPhil/PhD in Crop Science

(with streams in Agroforestry, Agronomy, Crop Protection, Horticulture and Soil Science)

Admission Requirements

a) Admission to Level 100 (First Year) of the Higher Diploma or BSc degree programmes shall be on the basis of performance in Science subjects in the Botswana General Certificate of Secondary Education (BGCSE) examination, or its equivalent.

Applicants for Higher Diploma or BSc programmes shall be required to have taken at least five subjects which include English Language and Mathematics, at the Botswana General Certificate of Secondary Education (BGCSE) examination at one sitting of its equivalent and obtained:

- A minimum grade of Pass (D) or its equivalent in English Language
- A minimum grade of Credit (C) or its equivalent in Mathematics

b) In addition to the above basic requirements, applicants for Higher Diploma or BSc programmes must have:

- Physics
- Chemistry
- Biology

OR

A minimum grade of BB or its equivalent, in Science Double Award or its equivalent.

a) The other qualifying subject(s) must be a minimum of a credit or its equivalent in at least one of the following:

- Agriculture
- Development Studies
- Literature in English
- Design and Technology
- Food and Nutrition
- Computer Studies
- Business Studies
- Any other subject(s) deemed appropriate by the Faculty of Agriculture

b) An applicant who has taken relevant Advanced (A) – level or equivalent examinations and attained a minimum of one E and two Ds in the relevant subjects may be admitted to Higher Diploma or BSc degree programmes. If an applicant has grade E or better at Advanced (A)-level or equivalent examinations in Science subjects s(he) may, subject to the recommendation by the relevant Head of Department and approval by the Deputy Dean, be awarded credits and be exempted from equivalent

course(s) prescribed for Higher Diploma or BSc programmes.

c) Applicants who have a relevant Certificate, Diploma or Higher Diploma in Agriculture or allied fields from an approved institution or equivalent qualifications may be admitted for Higher Diploma Programmes or BSc respectively and be awarded credits from the Certificate, Diploma or Higher Diploma courses.

Admission Requirements for Graduate Programmes

1. The normal minimum entrance requirement shall be a Bachelor's degree of the University of Botswana or any other recognized University or equivalent institution with at least a second class, second division or equivalent (3.0 GPA, on a 5-point scale) in the relevant field.

2. Candidates with a 'Pass' or equivalent, and who have at least two years of relevant work experience, may be considered for provisional admission. After successful completion of 2 semesters of full-time academic work or 24 credits of part-time work, the student will be considered to be in good academic standing.

3. Applicants who have completed postgraduate diploma are eligible for admission into a relevant Master's programme. The number of credits to be allowed towards the Master's will be assessed on admission.

4. Subject to the approval of the Departmental Board and the School of Graduate Studies, students seeking to transfer from another recognized institution may be credited with up to a maximum of one-third of the total number of credits required for the programme. A transfer student must meet existing Faculty pre-requisites for the intended programme of study.

A prospective applicant is advised to discuss his/her proposed programme with the relevant faculty before applying.

Application for Admission: Undergraduate/Graduate.

Programmes are advertised from January to April each year for candidates wishing to enrol for the August intake of the same year.

NB: Meeting the minimum entry requirements does not guarantee admission. Final selection of candidates is based on the best grades and availability of space.

Sponsorship

- The University (BUAN) does not offer sponsorships or bursaries. Botswana citizens admitted to undergraduate programmes are advised to apply to the Department of Tertiary Education Financing in the Ministry of Education and Skills Development for sponsorship.
- Admitted applicants will be required to produce /show letters of sponsorship at the time of registration.
- Non-Batswana students have to produce satisfactory evidence of the award of sponsorship and be in possession of valid travel documents to enter the country and resident permits.
- All self-sponsored students are required to pay all the semester fees before registration.

CICE Courses (Course certificate awarded by BUAN)

Offers short courses (one to ten days) in agriculture and rural development to certificate, diploma and degree holders in agricultural disciplines and farmers who have gone through formal education.

The following breakdown shows the current annual rates (2017/18) for, Higher Diploma, BSc. and Masters programmes offered at BUAN. The figures may be revised upwards anytime.

New 2018 - 19 Schedule of Fees

THE BOTSWANA UNIVERSITY OF AGRICULTURE & NATURAL RESOURCES SCHEDULE OF FEES

| PROGRAMMES | FEES 2018/19 | |
|---|--------------|--------------------|
| | ANNUAL FEE | FEE For One Credit |
| In line with SADC protocol on education, students from SADC pay as residents tax payers or citizens *** | | |
| UNDERGRADUATE PROGRAMMES | | |
| CERTIFICATES | | |
| Resident Students | 33 900 | 1 130 |
| Non-Resident Students | 67 800 | 2 260 |
| DIPLOMAS | | |
| Resident Students | 33 900 | 1 130 |
| Non-Resident Students | 67 800 | 2 260 |
| BACHELORS | | |
| Resident Students | 33 900 | 1 130 |
| Non-Resident Students | 67 800 | 2 260 |

| POSTGRADUATE PROGRAMMES | | |
|---|--------|-------|
| MASTERS PROGRAMMES | | |
| Resident Students | 30 000 | 1 250 |
| Non-Resident Students | 45 120 | 1 880 |
| MPhil PROGRAMMES | | |
| Resident Students | 30 000 | 1 250 |
| Non-Resident Students | 45 120 | 1 880 |
| PhD PROGRAMMES | | |
| Resident Students | 11 976 | 499 |
| Non-Resident Students | 17 952 | 748 |
| OTHER FEES | | |
| APPLICATION FEE | | |
| Resident Students | 320 | 499 |
| Non-Resident Students | 630 | 748 |
| LATE APPLICATION FEE | | |
| Resident Students | 470 | |
| Non-Resident Students | 940 | |
| STUDENT LIFE FEE | | |
| Late Registration Fee/Day (Returning Students) (maximum 14 days) | 190 | |
| Late Registration Fee/Day (New Students) (maximum 14 days) | 110 | |

| Transcript Fee | 44 | |

| During Holidays/Day | 530 | |
| Laundry Fee/Annum | 750 | |
| Excursion fees/student/ Semester | 1 000 | |

Career Opportunities

Agripreneurship Development Programme

The primary objective of this programme is to create entrepreneurship awareness in our final year students. Lecturers the University inculcate a spirit of entrepreneurship making sure that the students are able to establish business as well as understand all the challenges that come with the business environment. The programme is conducted in partnership with the Local Enterprise Authority (LEA), Ministries of Agriculture and food security, Local Government, Education and other government departments which require agricultural expertise as well as advice.

- Employment in the public service in the Ministries of Agriculture, Local Government, Education and other government departments which require expert agricultural advice.
- Extension Services – Advising farmers on better agricultural techniques.
- Research – Doing agricultural research in any one of the five major areas – Crop Science and Production, Animal Science and Production, Agricultural Economics, Agricultural Engineering and Agronomy.
- Teaching in secondary or agricultural schools.
- Working in Public Corporations such as banks and cooperatives as Project Officer for their agricultural projects or in management of their agricultural enterprises.
- Opportunities also exist in the private sector such as farm management and project evaluation in Agri-businesses.
- Self-employment – by taking advantage of programmes offered by the government.

Areas of Competence

BUAN CONSULT

Introduction

The Botswana University of Agriculture & Natural Resources (BUAN), as an institution has been in existence for the past 50 years and was commemorated on the 20th of October 2017. Throughout its period of existence, it has made substantial contributions to agricultural development in Botswana through training of human resources and research in various agricultural disciplines. BUAN academic staff have varied specialities and experience vital for agricultural and agro-industrial development in Botswana and the SADC region.

The University has established a consultancy company with the aim of offering services in three themes namely:

- **Commissioned Consultancy Services**
- **Contracted Research and Development**
- **Professional Development Programmes**

The services are designed primarily to assist government, parastatals, agricultural institutions and enterprises, manufacturers, non-governmental and international organizations in Botswana and the SADC region.

Capacity

BUAN is made up of six academic departments with highly trained personnel. The staff is composed of a multi-disciplinary group of PhD and MSc holders with specialists in nearly all aspects of agricultural and agro-industry.

The staff can call upon the service of advanced analytical laboratories, stocked BUAN/Department of Agricultural Research (DAR) libraries, computer facilities and crop and livestock farm units. In addition, having relations with the University of Botswana greatly strengthens BUAN's ability to participate in large integrated projects. BUAN is therefore a high calibre human resource centre with capacity to offer consultancy and advisory services for operations in agricultural and agro-industry projects ranging from small-scale local enterprises to national development programmes.

Philosophy

Our philosophy is to understand your business, collect and analyse information pertaining to it, assemble relevant facts and projections, and give expert advice to enable you to make the right decisions in your undertaking.

Agricultural Economics and Policy

- Resource economics and farm enterprise selection advice.
- Project planning and implementation
- Farm business feasibility studies
- Pre-investment studies
- Assessment of socio-economic implications of agricultural development schemes
- Marketing research and analysis
- Market planning and management.
- Policy analysis

Agricultural Education and Extension

- Development of target-oriented training
- Development of curriculum and training material
- Development of extension programmes
- Anthropological and sociological surveys
- Baseline studies and pre-feasibility studies
- Formulation, monitoring and evaluation of projects

Agricultural Engineering & Land Planning

- Farm machinery policy and strategy formulation
- Farm machinery testing and evaluation
- Farm mechanization strategies/planning
- Tillage systems support
- Environmental Impact Assessment (EIA)
- GIS and Remote Sensing solutions
- Irrigation system design and implementation
- Land surveying and land use planning
- Design and building of agricultural structures
- Crop processing, packaging and storage.

Animal Science and Production

- Livestock production projects planning
- Dairy project development
- Poultry, pigs, sheep/goats production system
- Herd health
- Beef ranching
- Range and pasture development
- Forage production and conservation
- Formulation of dairy, poultry and pig rations
- Feed evaluation
- Wildlife farming.

Basic Sciences

- Planning and management of biological experiments
- Statistical analysis of biometrical information
- Evaluation of animal/plant genetic improvement
- Evaluation of tradition medicinal plants
- Taxonomical reviews and analysis
- Plant and animal mapping
- Epidemiological modelling
- Ethno botany and plant diversity documentation
- Nutritional analysis service.

Crop Science and Production

- Assessment of dry land farming and horticulture potential
- Promotion of agro-forestry on farms for fuel and fodder supplies and for soil and water conservation and soil fertility improvement
- Assessment, management and evaluation of integrated pest management strategies
- Agrochemical evaluation for insect pests, diseases and weeds
- Soil survey, mapping and classification
- Advise on soil fertility and fertilizer use
- Soil analysis services.

ACADEMIC CALENDAR 2018-2019

SEMESTER 1

JULY 2018

- 1 *Sir Seretse Khama Day*
- 2 *Public Holiday*
- 3-13 Supplementary Examination Registration
- 13 End of Winter Session (taught courses)
- 16 *President's Day*
- 17 *Public Holiday*
- 18-20 Supplementary Examinations
- 23 Orientation of all new undergraduate and graduate students
- 23 Departmental Board meetings (Supps and winter courses)
- 24-27 Registration of all new undergraduate and graduate students
- 25 **FACULTY BOARD EXECUTIVE (Supps and winter courses)**
- 26 **SENATE (Supplementary Exams)**
- 30-31 Arrival and registration of returning undergraduate and graduate students (all programmes)
- 31 **Academic Advisory Committee**

AUGUST 2018

- 1-3 Arrival and registration of returning undergraduate and graduate students (all programmes) continues
- 2 **Research, Technology Development & Transfer Committee**
- 6 Classes begin for all programmes
- 6-10 Add/drop and late registration period (all students registering during this period will incur a late registration fee of P110.00 for new students and P190.00 for returning students per day)
- 13-17 Students can drop a course but will not be allowed to register for any new Course
- 16 **Appointments, Promotions and Nominations Committee**
- 17 **FACULTY BOARD MEETING**
- 30 **UNIVERSITY COUNCIL**
- 31 Last day to withdraw and receive a refund

SEPTEMBER 2018

- 7 Deadline for submission of teaching allocations for semester 2
- 11 **SENATE**
- 24-28 **MID-SEMESTER BREAK**
- 30 *Botswana Day*

OCTOBER 2018

- 1 *Public Holiday*
- 2 *Public Holiday*
- 3 Classes Resume after Mid-Semester Break
- 6 **Graduation Ceremony**
- 23 **Academic Advisory Committee**
- 25 **Research, Technology Development & Transfer Committee**

NOVEMBER 2018

- 2 **FACULTY BOARD MEETING**
- 5-16 Advance Registration for Semester 2
- 13 **SENATE**
- 15 **Appointments, Promotions and Nominations Committee**
- 16 Last Day of Classes
- 17-18 Reading days (No classes, assessments, examinations held)
- 19 Final Examination Period Begins
- 29 **UNIVERSITY COUNCIL**
- 30 Final Examinations Period Ends
- 30 **END OF SEMESTER 1**

DECEMBER 2018

- 4-5 Departmental Board meetings (for exams)
- 10 **FACULTY BOARD MEETING (for exams)**
- 13 **SENATE EXECUTIVE COMMITTEE (for exams)**
- 14 **RESULTS PUBLISHED**
- 14-19 **Registration for Supplementary Examinations**
- 19 University Closes for Christmas

SEMESTER 2

JANUARY 2019

- 1 *New Year's Day*
- 2 *Public Holiday*
- 7 **University re-opens**
- 15-16 **Registration for Supplementary Examinations (continues)**
- 21-25 **Supplementary Examinations**
- 21-25 Arrival and registration of all students (All programmes)
- 28 Classes begin for all students
- 29 Departmental Board meetings (Supp exams)
- 31 **FACULTY BOARD EXECUTIVE (Supp exams)**

FEBRUARY 2019

- 4-8 Add/drop and late registration period (all students registering during this period will incur a late registration fee of P110.00 for new students and P190.00 for returning students per day)
- 4 **Academic advisory Committee**
- 5 **SENATE EXECUTIVE COMMITTEE (for special and sups exams)**
- 6 **RESULTS PUBLISHED**
- 7 **Research, Technology Development & Transfer Committee**
- 11 **Appointments, Promotions and Nominations Committee**
- 11-15 Students can drop a course but will not be allowed to register for any new course
- 14 **Appointments, Promotions and Nominations Committee**
- 15 **FACULTY BOARD MEETING**
- 19 **SENATE**
- 22 Last day to withdraw and receive a refund
- 28 **UNIVERSITY COUNCIL**

MARCH 2019

- 11-15 Registration for Winter Session
- 18 Mid- Semester Break Begins
- 22 Deadline for submission of teaching allocations for semester 1
- 25 Classes Resume after Mid-Semester Break

APRIL 2019

- 9 **Academic Advisory Committee**
- 11 **Research, Technology Development & Transfer Committee**
- 13 **FACULTY BOARD MEETING**
- 19 *Good Friday*
- 22 *Easter Monday*

MAY 2019

- 1 *Labour Day*
- 9 **Appointments, Promotions and Nominations Committee**
- 10 Last Day of Classes
- 11-12 *Reading days (No classes, assessments, examinations held)*
- 13 Final Examination Period Begins
- 14 **SENATE**
- 24 Final Examination Period Ends
- 24 **END OF SEMESTER 2**
- 27 **Winter Session starts**
- 27-28 Departmental Board meetings (for exams)
- 29 **UNIVERSITY COUNCIL**
- 30 *Ascension Day*

JUNE 2019

- 4 **FACULTY BOARD MEETING (for exams)**
- 7 **SENATE EXECUTIVE (for exams)**
- 14 **RESULTS PUBLISHED**

JULY 2019

- 1 *Sir Seretse Khama Day*
- 5 **End of (TP, FPT)**
- 8-10 Special Examinations
- 8-12 Registration for supplementary Examinations
- 15 *President's Day*
- 16 *Public Holiday*
- 22-26 **Supplementary Examinations**
- 26 End of winter session (taught courses)
- 29 Departmental Board meetings (for special, winter and sups exams)
- 30 **Faculty Board Meeting (for supps and winter exams)**
- 31 **SENATE EXECUTIVE (for supps and winter exams)**
- 31 **RESULTS PUBLISHED**
