

TIMETABLE NOTICE

FINAL LECTURING TIMETABLE: SEMESTER 1, 2021/2022 – AUGUST TO DECEMBER 2021

Please find attached the **FINAL** lecturing timetable for the August to December 2021 semester. The timetable has been designed based on the core and optional courses as per the different programme structures. Students are advised that it is not allowed to register for courses that are scheduled to run at the same time as per **General Academic Regulation 00.615** (please refer to it).

We are very much aware that we have different categories of students. That is, we have:

- 1. Students who are following their respective programme without any retakes** - These students will register for the Core courses and Optional courses as provided for in the timetable and choose Electives/GECs which do not clash with their core and optional courses.
- 2. Students who are proceeding with Retakes** - These students will register for the core courses and optional courses as provided for in the timetable and choose Electives/GECs which do not clash with their core and optional courses. They may also register for their Retakes if the timetable allows. **This category of students must without failure, discuss their choice with the personal tutor.**
- 3. Student who joined their programme at different levels and have been exempted some courses:** This category is different from both 1 and 2 above (these are the In-Service/Progression and Re-instated students). They are required to plan their registration strictly based on the provisions of the timetable. This means that, as much as they may take courses across the semesters, **if they find that the course they intend to take is scheduled at the same time with the other one, then, they should not attempt to register for that course. This category of students must without failure, discuss their choice with the personal tutor.**

You are also advised that where a course has more than one (1) group for class, practical or tutorial, the course lecturer will accordingly divide the class into such groups. Where a course lecture has group 1 and group 2, the lecturer will inform the student whether they belong to group 1 or 2.

NB: STUDENTS ARE REMINDED THAT REGISTERING CLASHING COURSES IS NOT ALLOWED AS PER REGULATION 00.615
